The Veszprem (P 48/D 68) airfield is located outside of the Veszprem Kuolsee Palyaudvar railroad station in the direction of Devecser (P 48/D 38) north of the sharp bend of the railroad line towards the west. In May 1951, source observed 30 to 40 conventional aircraft of various types as well as about 10 jet aircraft including some canvas-covered planes. No concrete runway was observed. Soviet troops, trucks and tank trucks were observed at the field. *

25X1A * [REDACTED] Comment. The installation is the Veszprem-North airfield, also known as Jutas airfield. The present report agrees with previous reports which stated that a Soviet air force unit is stationed at the field. It cannot be determined whether the unit is an active fighter regiment. This is the first report to mention the presence of jet aircraft at the field. However, the correctness of this information is doubtful, because the airfield is believed to have no runway.
